STANDARD

Standard Industrial Manufacturing Partners LLC. is a specialty manufacturer of fluid end expendables for plunger pumps and centrifugal pumps.

Standard Industrial Manufacturing started in 1979. Our mission was to manufacture and supply pump parts to a few select pump retailers and OEMs. During the 1980s the company expanded its customer base to include all pump retailers and OEMs. Today, Standard has broadened its product lines to include most fluid-end expendables for all major pump brands.
